Pre-enrolment validation, MSc Electronic Engineering, applicant ID 784213

Dear Admissions Office,

My name is Ammar Al-Sabri, and I have been admitted to the MSc in Electronic Engineering for 2026/27 (applicant ID 784213; admission letter dated 2 April 2026). I would like to ask whether my pre-enrolment on Universitaly is complete.

I submitted the pre-enrolment request on 10 April, and the summary still shows “awaiting validation by the university”. Is a document missing from my file, or is the request simply in the queue?

I ask because my visa appointment at the Italian embassy in Cairo is on 12 June, and the embassy needs the validated summary.

Thank you for your help.

Kind regards,

Ammar Al-Sabri
