Ms Nermeen Farouk
HR Manager, Delta Pumps

Dear Ms Farouk,

Thank you for offering me the position of Mechanical Design Engineer at Delta Pumps. After careful thought, I have decided to decline it.

I have accepted a role that focuses on HVAC systems, the area I have been working towards since my graduation project. It was not an easy choice, because I enjoyed meeting your design team and seeing the test rig in your workshop.

I hope our paths cross again, and I would be glad to stay in touch.

Kind regards,

Hany Mostafa
