Recommendation letter for the MSc in Data Science and Economics, University of Milan (deadline 10 February)

Dear Dr Rizk,

I am applying for the MSc in Data Science and Economics at the University of Milan, and I would be grateful if you would write a recommendation letter for me. You taught me in Data Mining in spring 2023 and supervised my senior project the following year.

The deadline is 10 February 2027. Once I enter your name and email in the application system, it will send you a link to upload the letter directly, so nothing needs to come through me.

If it helps, you could mention that I finished Data Mining with the highest mark in a class of 45, and my senior project, in which I predicted the generator fuel demand of three Beirut neighbourhoods from weather data and presented the results at the department's open day. I would be happy to send my CV, my statement of purpose and a one-page summary of the project.

I know this is a busy time of year. If you are not able to write it, I will completely understand.

Thank you very much,

Maya Khoury
