Hi Lena,

I saw the Junior Data Engineer role (ref. DE-207) at Kiezlog and I'd like to apply. I've spent two years building data pipelines in Python and Airflow at an e-commerce start-up here in Berlin, and the last one I rebuilt cut our nightly load from three hours to 40 minutes.

Would you have 15 minutes this week for a quick call about the team?

Thanks,
Fadi
