Dear Dr Mansour,

I wanted you to hear it from me first: I have been admitted to the MSc in Architecture at TU Delft, starting in September.

Thank you for your recommendation letter, and for the hour you spent on my portfolio. You told me to cut it in half and keep the library project. In my interview, the committee asked about almost nothing else.

I will write again from Delft. Thank you for everything you taught me.

Warm regards,
Ibrahim Jaber
