Application for a long-stay student visa (type D), Leen Haddadin, MSc in Management Engineering, Sapienza University of Rome

Dear Visa Officer,

I am applying for a long-stay student visa (type D) to study for the MSc in Management Engineering at Sapienza University of Rome, a two-year programme starting on 1 October 2026. My admission letter and my validated Universitaly pre-enrolment summary are attached.

My studies are funded by a regional scholarship from DiSCo Lazio for the 2026/27 academic year, which covers my tuition and a place in a university residence. I also hold personal savings of 6,500 EUR, shown in the attached bank statement, for my other living costs.

Since 2022 I have worked as a site engineer at Al-Mimar Consultants in Amman. The company has granted me two years of unpaid leave and expects me back in October 2028, as stated in the attached letter. I intend to return to that position when I complete the degree.

The following documents are attached:
- Admission letter, Sapienza University of Rome
- Universitaly pre-enrolment summary
- DiSCo Lazio scholarship award letter
- Bank statement for the last six months
- Employer’s letter confirming unpaid leave
- Health insurance certificate
- Passport copy

Thank you for considering my application. I can provide any further document you may need at the email address above.

Yours faithfully,

Leen Haddadin
